Voice: 716-297-2920  
Fax: 716-297-3689

### **SMT Disclaimer**

Due to the complex nature of the use of SMT installed components in Yorkville equipment, we highly caution all service technicians in attempting to repair or replace SMT factory installed components.

Many of these components may be glued prior to initial soldering.

**Replacing SMT components requires expensive specialized de-soldering equipment and training.**

Yorkville Sound will repair and replace defective SMT components to ensure proper quality assurance and installation is maintained.

**Quality and Innovation Since 1963**  
Printed in Canada

## IMPORTANT SAFETY INSTRUCTIONS

|   |  |   |  |
|---|--|---|--|
|  <p>This lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.</p> <p>Ce symbole d'éclair avec tête de flèche dans un triangle équilatéral est prévu pour alerter l'utilisateur de la présence d'un «voltage dangereux» non-isolé à proximité de l'enceinte du produit qui pourrait être d'ampleur suffisante pour présenter un risque de choc électrique.</p> |  <p><b>CAUTION • AVIS</b><br/><b>RISK OF ELECTRIC SHOCK<br/>DO NOT OPEN<br/>RISQUE DE CHOC ÉLECTRIQUE<br/>NE PAS OUVRIR</b></p> |  <p><b>DO NOT<br/>PUSH OR PULL</b></p>         |  <p>The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.</p> <p>Le point d'exclamation à l'intérieur d'un triangle équilatéral est prévu pour alerter l'utilisateur de la présence d'instructions importantes dans la littérature accompagnant l'appareil en ce qui concerne l'opération et la maintenance de cet appareil.</p> |
|  <p>The DO NOT STACK symbol is intended to alert the user that the product shall not be vertically stacked because of the nature of the product.</p> <p>La symbole NE PAS EMPILER est pour alerter l'utilisateur que le produit ne doit pas être empilé verticalement en raison de la nature du produit.</p>  |  <p><b>CAUTION: HOT SURFACE<br/>ATTENTION: SURFACE CHAUDE</b></p>   |  <p><b>NOT TO BE SERVICED<br/>BY USERS</b></p> |  <p><b>CAUTION: OVERHEAD LOAD<br/>ATTENTION: CHARGE AÉRIENNE</b></p>  |

### FOLLOW ALL INSTRUCTIONS

#### Instructions pertaining to a risk of fire, electric shock, or injury to a person

**CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK).  
NO USER SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE  
PERSONNEL. THIS DEVICE IS FOR INDOOR USE ONLY!  
INSTALLED BATTERY PACKS SHALL NOT BE EXPOSED TO EXCESSIVE HEAT  
SUCH AS SUNSHINE, FIRE OR THE LIKE.**

### SUIVEZ TOUTES LES INSTRUCTIONS

#### Instructions relatives au risque de feu, choc électrique, ou blessures aux personnes

**AVIS: AFIN DE RÉDUIRE LES RISQUES DE CHOC ÉLECTRIQUE, N'ENLEVEZ PAS LE COUVERT (OU LE PANNEAU  
ARRIÈRE) NE CONTIENT AUCUNE PIÈCE RÉPARABLE PAR L'UTILISATEUR. CONSULTEZ UN TECHNICIEN  
QUALIFIÉ POUR L'ENTRETIEN CE PRODUIT EST POUR L'USAGE À L'INTÉRIEUR SEULEMENT. LES PACKS  
BATTERIES INSTALLÉS NE DOIVENT PAS ÊTRE EXPOSÉS À UNE CHALEUR EXCESSIVE TELLE QUE LE  
ENSOLEILLEMENT, LE FEU OU SIMILAIRES.**

**Read Instructions:** The Owner's Manual should be read and understood before operation of your unit. Please, save these instructions for future reference and heed all warnings.

**Cleaning:** Clean only with dry cloth.

**Packaging:** Keep the box and packaging materials, in case the unit needs to be returned for service.

**Warning:** To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture. *Do not use this apparatus near water!*

**Warning:** When using electric products, basic precautions should always be followed, including the following:

#### Power Sources

Your unit should be connected to a power source only of the voltage specified in the owners manual or as marked on the unit. This unit has a polarized plug. Do not use with an extension cord or receptacle unless the plug can be fully inserted. Precautions should be taken so that the grounding scheme on the unit is not defeated. An apparatus with CLASS I construction shall be connected to a Mains socket outlet with a protective earthing connection. Where the MAINS plug or an appliance coupler is used as the disconnect device, the disconnect device shall remain readily operable.

#### Hazards

Do not place this product on an unstable cart, stand, tripod, bracket or table. The product may fall, causing serious personal injury and serious damage to the product. Use only with cart, stand, tripod, bracket, or table recommended by the manufacturer or sold with the product. Follow the manufacturer's instructions when installing the product and use mounting accessories recommended by the manufacturer. Only use attachments/accessories specified by the manufacturer.

Equipment that is suspended overhead must use a secondary safeguard to prevent personal injury in the event the primary mounting mechanism fails. Safety eyebolts attached to the equipment and galvanized steel wire can be used together to implement a failsafe mounting thus ensuring the safety of the equipment and anyone positioned below the equipment.

Improper installation can result in bodily injury or death. If you are not qualified to attempt the installation get help from a professional structural rigger.

*Note: Prolonged use of headphones at a high volume may cause health damage to your ears.*

The apparatus should not be exposed to dripping or splashing water; no objects filled with liquids should be placed on the apparatus.

Terminals marked with the "lightning bolt" are hazardous live; the external wiring connected to these terminals require installation by an instructed person or the use of ready made leads or cords.

Ensure that proper ventilation is provided around the appliance. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.

No naked flame sources, such as lighted candles, should be placed on the apparatus.

#### Power Cord

Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet. The AC supply cord should be routed so that it is unlikely that it will be damaged. Protect the power cord from being walked on or pinched particularly at plugs. If the AC supply cord is damaged DO NOT OPERATE THE UNIT. To completely disconnect this apparatus from the AC Mains, disconnect the power supply cord plug from the AC receptacle. The mains plug of the power supply cord shall remain readily operable.

Unplug this apparatus during lightning storms or when unused for long periods of time.

#### Service

The unit should be serviced only by qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, requires battery pack replacement or has been dropped. Disconnect power before servicing!

**Veillez Lire le Manuel:** Il contient des informations qui devraient être comprises avant l'opération de votre appareil. Conservez. Gardez S.V.P. ces instructions pour consultations ultérieures et observez tous les avertissements.

**Nettoyage:** Nettoyez seulement avec le tissu sec.

**Emballage:** Conservez la boîte au cas où l'appareil devait être retourné pour réparation.

**Avertissement:** Pour réduire le risque de feu ou la décharge électrique, n'exposez pas cet appareil à la pluie ou à l'humidité. *N'utilisez pas cet appareil près de l'eau!*

**Attention:** Lors de l'utilisation de produits électrique, assurez-vous d'adhérer à des précautions de bases incluant celle qui suivent:

**Alimentation** - L'appareil ne doit être branché qu'à une source d'alimentation correspondant au voltage spécifié dans le manuel ou tel qu'indiqué sur l'appareil. Cet appareil est équipé d'une prise d'alimentation polarisée. Ne pas utiliser cet appareil avec un cordon de raccordement à moins qu'il soit possible d'insérer complètement les trois lames. Des précautions doivent être prises afin d'éviter que le système de mise à la terre de l'appareil ne soit désengagé. Un appareil construit selon les normes de CLASS I devrait être raccordé à une prise murale d'alimentation avec connexion intacte de mise à la masse. Lorsqu'une prise de branchement ou un coupleur d'appareils est utilisée comme dispositif de débranchement, ce dispositif de débranchement devra demeurer pleinement fonctionnel avec raccordement à la masse.

**Risque** - Ne pas placer cet appareil sur un chariot, un support, un trépied ou une table instables. L'appareil pourrait tomber et blesser quelqu'un ou subir des dommages importants. Utilisez seulement un chariot, un support, un trépied ou une table recommandés par le fabricant ou vendus avec le produit. Suivre les instructions du fabricant pour installer l'appareil et utiliser les accessoires recommandés par le fabricant. Utilisez seulement les attachements/accessoires indiqués par le fabricant.

L'équipement suspendu au-dessus de la tête doit utiliser une protection secondaire pour éviter les blessures en cas de défaillance du mécanisme de montage principal. Les boulons à œil de sécurité fixés à l'équipement et le fil d'acier galvanisé peuvent être utilisés ensemble pour mettre en œuvre un montage à sécurité intégrée, assurant ainsi la sécurité de l'équipement et de toute personne placée sous l'équipement.

Une installation incorrecte peut entraîner des blessures corporelles ou la mort. Si vous n'êtes pas qualifié pour tenter l'installation, demandez l'aide d'un gréer structurel professionnel.

*Remarque : L'utilisation prolongée d'écouteurs à un volume élevé peut nuire à la santé de vos oreilles.*

Il convient de ne pas placer sur l'appareil de sources de flammes nues, telles que des bougies allumées.

L'appareil ne doit pas être exposé à des égouttements d'eau ou des éclaboussures et qu'aucun objet rempli de liquide tel que des vases ne doit être placé sur l'appareil.

Assurez que l'appareil est fourni de la propre ventilation. Ne procédez pas à l'installation près de source de chaleur tels que radiateurs, registre de chaleur, fours ou autres appareils (incluant les amplificateurs) qui produisent de la chaleur.

Les dispositifs marqués d'un symbole "d'éclair" sont des parties dangereuses au toucher et que les câbles extérieurs connectés à ces dispositifs de connexion extérieure doivent être effectués par un opérateur formé ou en utilisant des cordons déjà préparés.

**Cordon d'Alimentation** - Ne pas enlever le dispositif de sécurité sur la prise polarisée ou la prise avec tige de mise à la masse du cordon d'alimentation. Une prise polarisée dispose de deux lames dont une plus large que l'autre. Une prise avec tige de mise à la masse dispose de deux lames en plus d'une troisième tige qui connecte à la masse. La lame plus large ou la tige de mise à la masse est prévu pour votre sécurité. La prise murale est désuète si elle n'est pas conçue pour accepter ce type de prise avec dispositif de sécurité. Dans ce cas, contactez un électricien pour faire remplacer la prise murale. Évitez d'endommager le cordon d'alimentation. Protégez le cordon d'alimentation. Assurez-vous qu'on ne marche pas dessus et qu'on ne le pince pas en particulier aux prises. N'UTILISEZ PAS L'APPAREIL si le cordon d'alimentation est endommagé. Pour débrancher complètement cet appareil de l'alimentation CA principale, déconnectez le cordon d'alimentation de la prise d'alimentation murale. Le cordon d'alimentation du bloc d'alimentation de l'appareil doit demeurer pleinement fonctionnel.

Débranchez cet appareil durant les orages ou si inutilisé pendant de longues périodes.

**Service** - L'appareil ne doit être entretenu que par un personnel de service qualifié. Une réparation est nécessaire lorsque l'appareil a été endommagé de quelque manière que ce soit, comme le cordon d'alimentation ou la fiche est endommagé, du liquide a été renversé ou des objets sont tombés dans l'appareil, l'appareil a été exposé à la pluie ou à l'humidité, ne fonctionne pas normalement, nécessite le remplacement de la batterie et est tombé. Débranchez l'alimentation avant l'entretien!

## IMPORTANT SAFETY INSTRUCTIONS

|  |  |
|--|--|
|  <p>The Lightning Flash with arrowhead symbol within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product enclosure that may be of sufficient magnitude to constitute a risk of shock to persons</p>   |  <p>Le symbole représentant un éclair avec une flèche à l'intérieur d'un triangle équilatéral est utilisé pour prévenir l'utilisateur de la présence d'une tension électrique dangereuse non isolée à l'intérieur de l'appareil. Cette tension est d'un niveau suffisamment élevé pour représenter un risque d'électrocution</p>  |
|  <p>The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the product</p>  |  <p>Le symbole représentant un point d'exclamation à l'intérieur d'un triangle équilatéral, signale à l'utilisateur la présence d'instructions importantes relatives au fonctionnement et à l'entretien de l'appareil dans cette notice d'installation</p>  |

# PCB ASSEMBLY DOCUMENTATION

## SPECIAL PRODUCTION NOTES

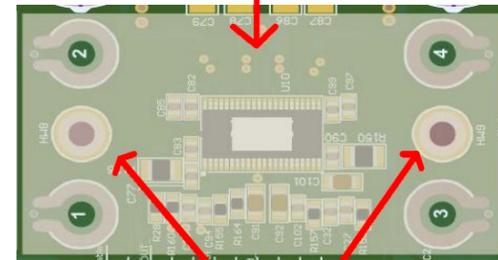

ADD RTV BETWEEN D20 AND C23,C26.

Place Z1892 HS on top of U9 and U10.

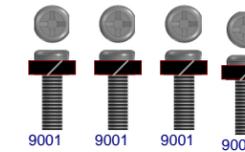

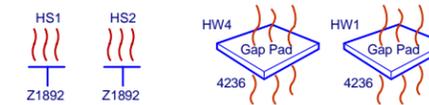

Place the 4236 pad onto U9 and U10 .  
Handle the pad by the edges only.

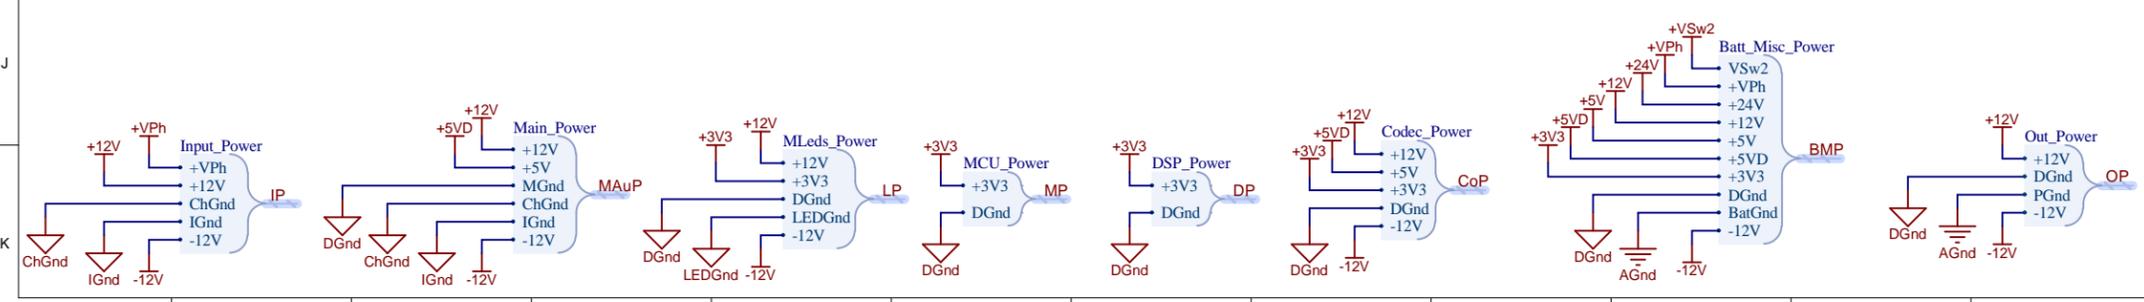

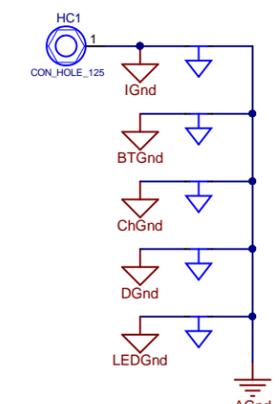

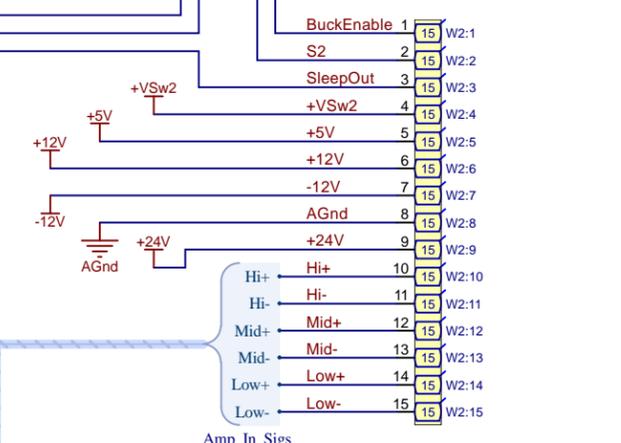

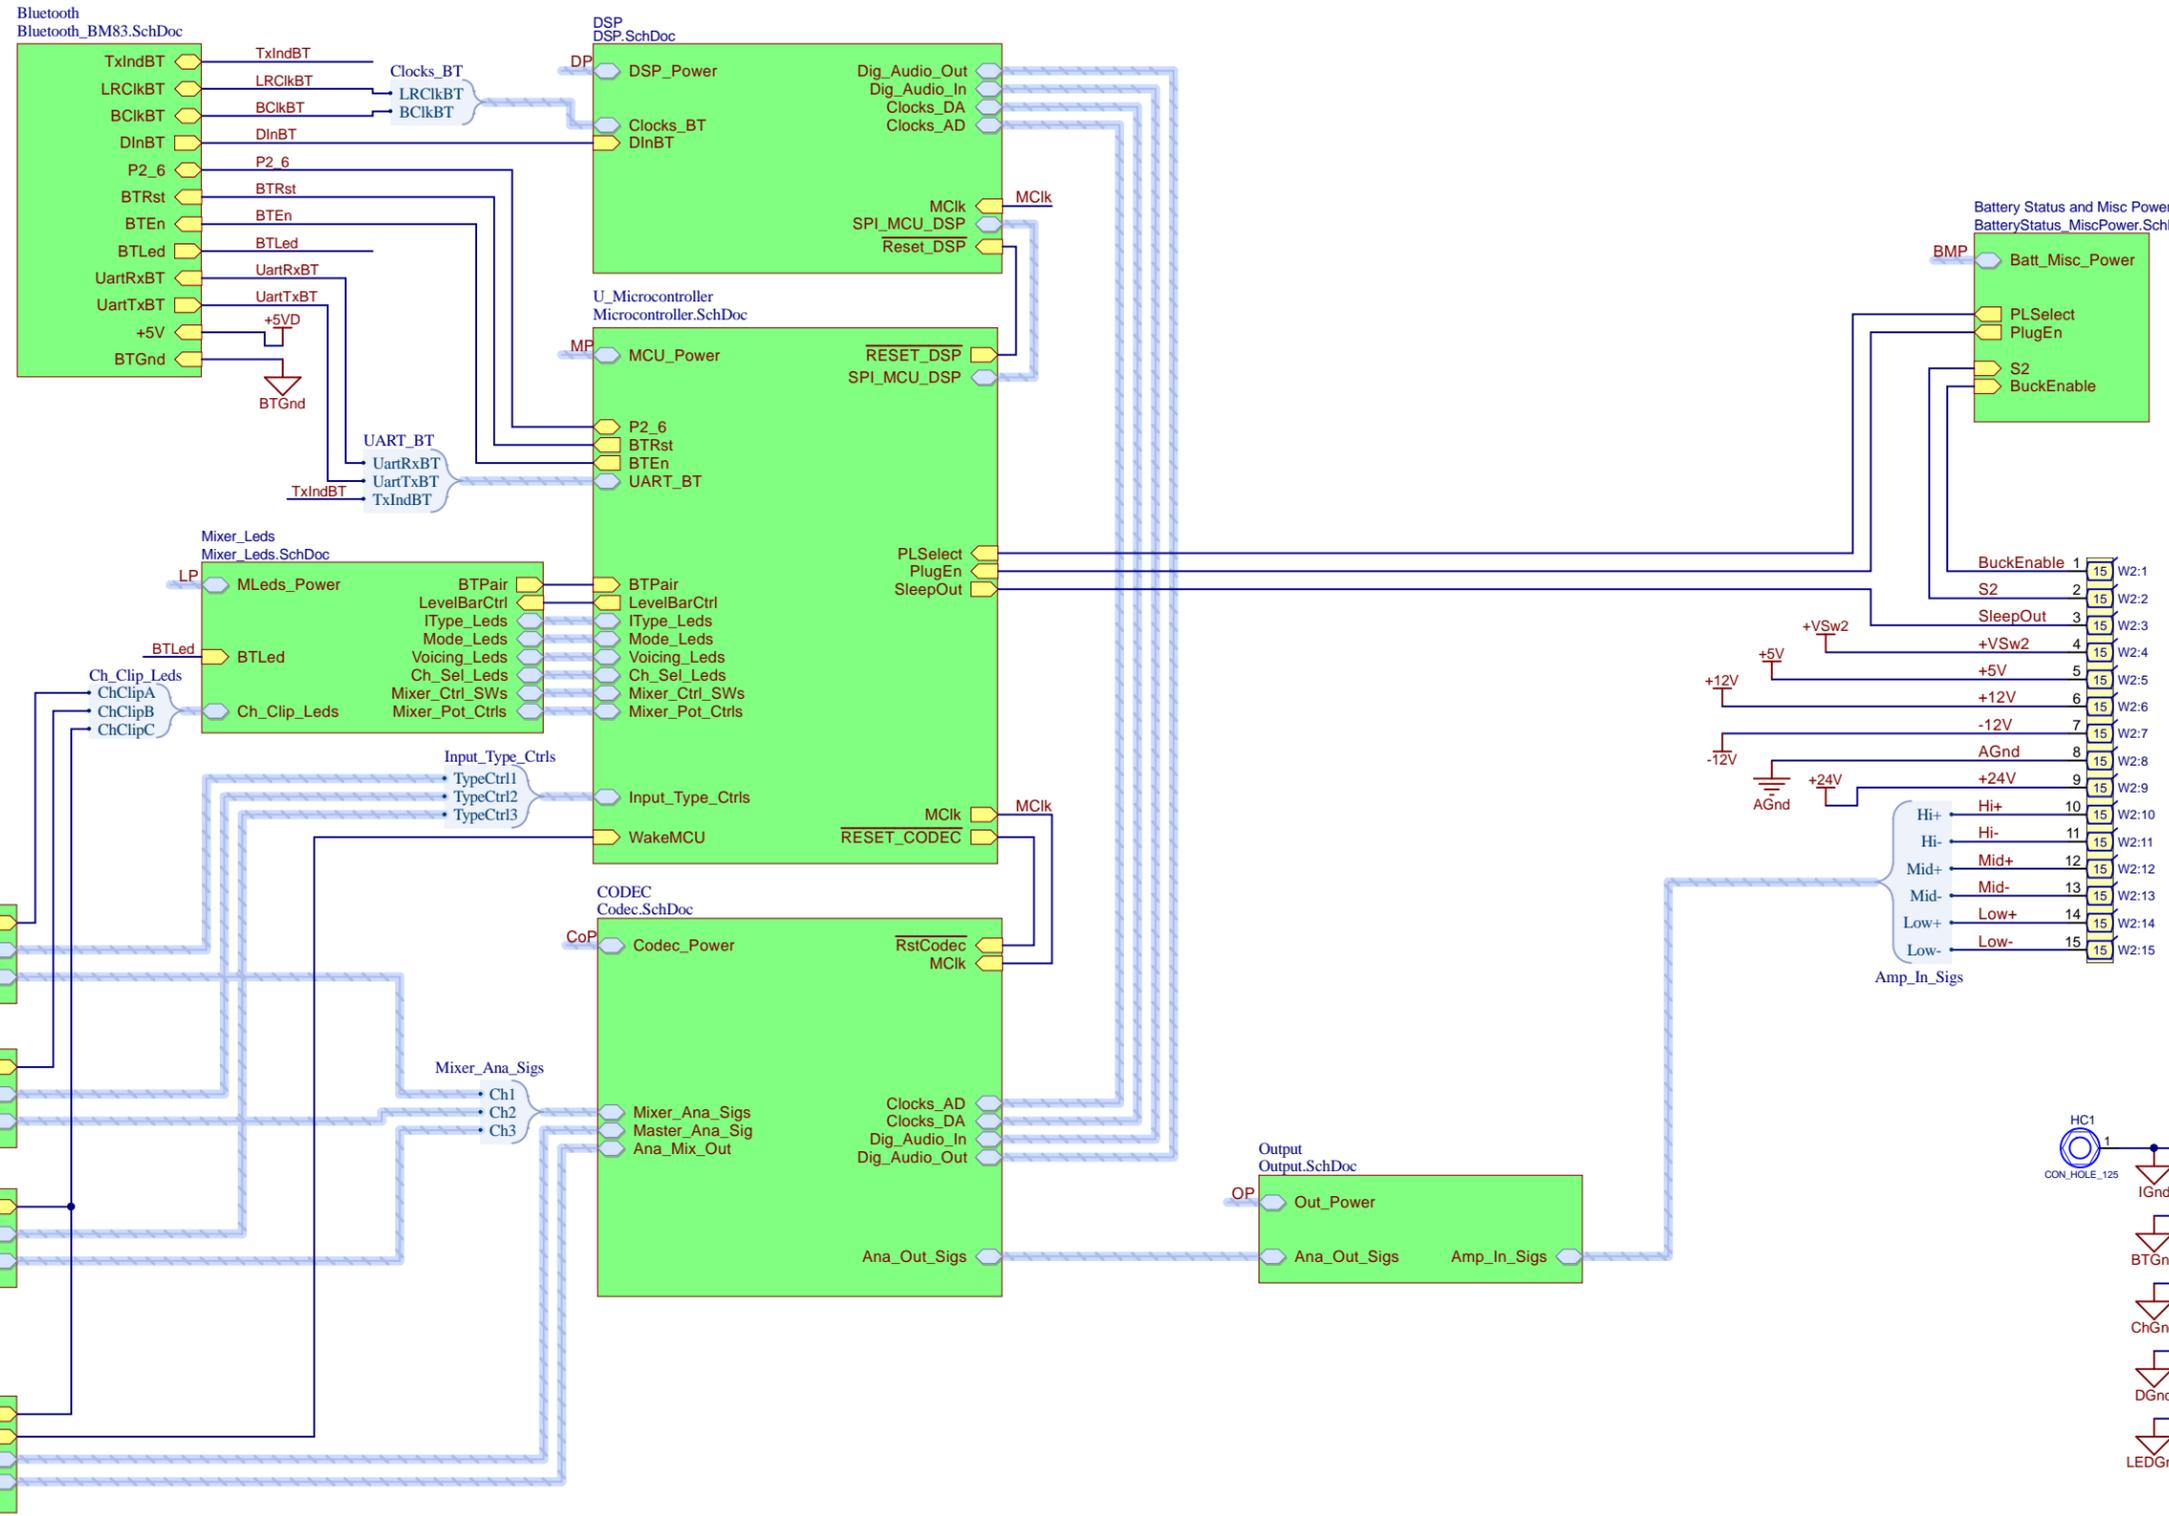

Secure with two 9001 screws from the bottom.

# EXM Mobile Tower

## EXM MOBILE TOWER ASSEMBLY Single and Double Spacers

## Top Panel

**Channels** - Tap each channel's select button to configure Input Type, Voicing and Reverb.

**Input Types** - The Combi-jack inputs are used for mic, line or instrument sources, an 1/8-inch TRS stereo jack is included on Ch. 48V phantom power is available on the XLR portion of the jacks.

**Voicing Selection** - 3 preset voicings (Music, Flat and Voice) can be set for each channel.

**Reverb Control** - A hall reverb is available on all 3 channels.

**Bluetooth™** - The EXM Mobile Tower is capable of streaming Bluetooth™ audio. Disabled by default; to enable, connect or reconnect, tap the Bluetooth™ button. *See Owner's Manual for more info.*

**Pairing** - Press the Bluetooth™ button and hold for 4 seconds, then release the button.

**Status** - The blue indicator displays the status of the connection. *See Owner's Manual for more info.*

**Level** - Volume can be changed by the connected Bluetooth™ device or the Level control of Ch 3.

**Stereo Mode** - Stereo playback is supported between two EXM Mobile Towers. *See Owner's Manual for more info.*

**Button Operation** - Single tap enables Bluetooth™ / double tap enters stereo mode / press & hold (4 sec) enters pairing mode / press & hold (8 sec) disables Bluetooth™

**Range** - The Bluetooth™ operating range is rated for 10 meters (33 feet) line of sight.

*Note: When connected with Bluetooth™, ALL AUDIO is streamed from your device.*

## Master Section

**Master** - Sets the overall level of the EXM Mobile Tower.

**Sub** - Sets the relative level of the subwoofer, Typically set around noon.

**Modes** - The two system modes alter the unit's EQ and dynamics. Club mode for music playback and Live Mode for live performance.

## Rear Panel

**Main Input & Output** - Jacks are in parallel. To use the Link feature, insert an XLR patch cable between cabinets.

**USB Power Output** - A USB power port provides a fixed output of 5V with up to 500mA of current and is used for power delivery only.

**Battery Status** - A series of 4 green LEDs indicate the approximate charge level of the unit.

*Note: The indicators will be active only when the power switch is on - Enabling this feature helps extend the battery life of the unit. In Extended Life mode the output and dynamics of the system are adjusted to extend the total battery runtime of the system.*

## Charging Indicator

Whenever AC is connected to the unit, the colour of the power on button will indicate the charging status. If it is green, the unit is fully charged. If it is red, the unit is in the process of charging.

## Charging the EXM Mobile Tower

To charge, plug into an AC power source using the included power cord. The indicator LED indicates the charging status. The EXM Mobile Tower can be used while charging. The EXM Mobile can also be safely left connected to AC power for charging indefinitely, it will intelligently control its own charging regime when plugged in long-term.

*Battery life in full power mode will typically be 10 hours.  
(see Battery Performance Modes section in the Owner's Manual)*

*The EXM Mobile will not charge when the temperature is below 0°C or above 45°C. If it is going to be stored unused for a long period of time (greater than 6 months) it is advisable to periodically plug it in to charge up the battery. If the EXM Mobile Tower has been stored for a long period of time unused and it has not been maintained, it is advisable to connect the charger and leave it plugged in for approximately 24 hours.*

# EXM Mobile Tower

## EXM MOBILE TOWER ASSEMBLAGE Entretroises Singulier et Doubles

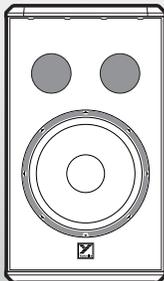

Insérez le réseau de haut-parleurs dans l'entrouise

Insérez la barre d'espacement dans la barre d'espacement  
*Facultatif*

Insérez l'entrouise dans le woofer / l'unité de contrôle

## Panneau Supérieur

**Canaux** - Appuyez sur le bouton de sélection de chaque canal pour configurer le type d'entrée, le timbre et la réverbération.

**Types d'Entrée** - Les entrées Combi-jack sont utilisées pour les sources micro, ligne ou instrument, un jack stéréo TRS 1/8 pouce est inclus sur le canal. Une alimentation fantôme 48V est disponible sur la partie XLR des connecteurs.

**Sélection de Timbre** - 3 timbres pré-réglés (Music, Flat et Voice) peuvent être réglés pour chaque canal.

**Contrôle de la Réverbération** - Une réverbération de type hall est disponible sur les 3 canaux.

**Bluetooth™** - L'EXM Mobile Tower est capable de diffuser des données audio Bluetooth™. Désactivé par défaut; pour l'activer, le connecter ou le reconnecter, touchez le bouton Bluetooth™. Voir le manuel du propriétaire pour plus d'informations.

**Jumelage** - Appuyez sur le bouton Bluetooth™ et maintenez-le enfoncé pendant 4 secondes, puis relâchez le bouton.

**État** - L'indicateur bleu affiche l'état de la connexion. Voir le manuel du propriétaire pour plus d'informations.

**Niveau** - Le volume peut être modifié par l'appareil Bluetooth™ connecté ou par la commande de niveau du canal 3.

**Mode Stéréo** - La lecture stéréo est prise en charge entre deux unités EXM Mobile Tower. Voir le manuel du propriétaire pour plus d'informations.

**Fonctionnement des Boutons** - Un simple appui permet d'activer le Bluetooth™ / un double appui permet d'accéder au mode stéréo / un appui prolongé (4 s) permet d'accéder au mode de jumelage / un appui prolongé (8 s) permet de désactiver le Bluetooth™.

**Portée** - La portée de fonctionnement de Bluetooth™ est évaluée à 10 mètres (33 pieds) en ligne de mire.

*Remarque: lorsque vous êtes connecté avec Bluetooth™, TOUT LE SON est diffusé à partir de votre appareil.*

## Section Principale

**Master** - Règle le niveau général de l'EXM Mobile Tower.

**Sub** - Règle le niveau relatif du caisson de graves, généralement vers 12h.

**Modes** - les deux modes du système modifient l'égalisation et la dynamique de l'appareil. Le mode Club pour la lecture de musique et le mode Live pour les concerts.

## Panneau Arrière

**Entrée et Sortie Principales** - Les prises sont en parallèle. Pour utiliser la fonctionnalité Link, insérez un câble de raccordement XLR entre les enceintes.

**Sortie d'Alimentation USB** - Un port d'alimentation USB fournit une sortie fixe de 5V avec jusqu'à 500mA de courant et est utilisé pour l'alimentation uniquement.

**État de la Batterie** - Une série de 4 DEL vertes indique le niveau de charge approximatif de l'unité.

*Remarque: Les indicateurs ne sont actifs que lorsque l'appareil est sous tension - L'activation de cette fonctionnalité permet de prolonger la durée de vie de la batterie de l'appareil. En mode Extended Life, la sortie et la dynamique du système sont ajustées pour prolonger l'autonomie totale de la batterie du système.*

## Indicateur De Charge

Lorsque l'appareil est branché sur une prise secteur, la couleur du bouton de mise sous tension indique l'état de charge de l'appareil. S'il est vert, l'appareil est entièrement chargé. S'il est rouge, l'appareil est en cours de chargement.

## Recharger l'EXM MOBILE TOWER

Pour le charger, branchez-le à une source d'alimentation CA à l'aide du cordon d'alimentation fourni. Le DEL indique l'état de charge. L'EXM Mobile Tower peut être utilisée alors qu'elle est en cours de charge. L'EXM Mobile peut également être laissée en toute sécurité branchée à une prise d'alimentation CA pour être rechargée indéfiniment, elle contrôlera intelligemment son propre régime de charge lorsqu'elle est branchée à long terme.

*La batterie peut durer 10 heures à pleine puissance.*

*(voir la section Modes de performance de la batterie dans le manuel du propriétaire)*

*L'EXM Mobile ne se rechargera pas si la température est inférieure à 0°C ou supérieure à 45°C.*

*Si elle doit rester inutilisée pendant une longue période (plus de 6 mois), il est conseillé de la brancher périodiquement pour recharger la batterie. Si la EXM Mobile Tower est restée inutilisée pendant une longue période et qu'elle n'a pas été entretenue, il est conseillé de brancher le chargeur et de le laisser branché pendant environ 24 heures.*
