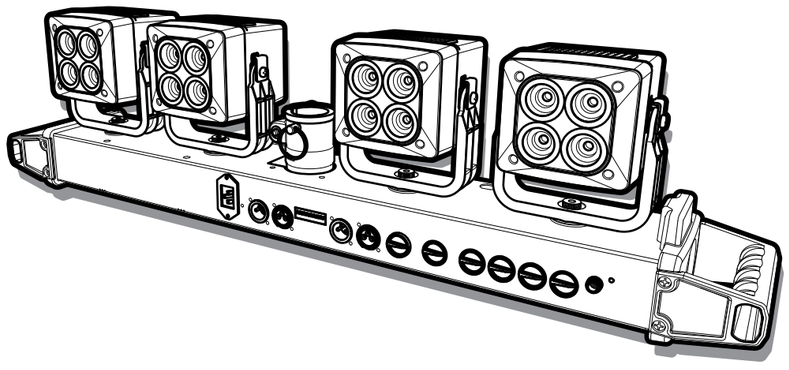
SERVICE MANUAL

LP-LED2X & LPLED4X



SMT Disclaimer

Due to the complex nature of the use of SMT installed components in Yorkville equipment, we highly caution all service technicians in attempting to repair or replace SMT factory installed components.

Many of these components may be glued prior to initial soldering.

Replacing SMT components requires expensive specialized de-soldering equipment and training.

Yorkville Sound will repair and replace defective SMT components to ensure proper quality assurance and installation is maintained.

Manual-Service-LP-LED_X-00-1v4 ĚMarch 21/2022

IMPORTANT SAFETY INSTRUCTIONS

This lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

Ce symbole d'éclair avec tête de flèche dans un triangle équilatéral est prévu pour alerter l'utilisateur de la présence d'un «voltage dangereux» non-isolé à proximité de l'enceinte du produit qui pourrait être d'ampleur suffisante pour présenter un risque de choque électrique.

The DO NOT STACK symbol is intended to alert the user that the product shall not be vertically stacked because of the nature of the product.

La symbole NE PAS EMPILER est pour alerter l'utilisateur que le produit ne doit pas être empilé verticalement en raison de la nature du produit.

SEPARATE COLLECTION WEEE

CAUTION • AVIS

RISK OF ELECTRIC SHOCK DO NOT OPEN
RISQUE DE CHOC ELECTRIQUE NE PAS OUVRIR

DO NOT PUSH OR PULL

IEC 60417-5041

CAUTION: HOT SURFACE
ATTENTION: SURFACE CHAUDE

NOT TO BE SERVICED BY USERS

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

Le point d'exclamation à l'intérieur d'un triangle équilatéral est prévu pour alerter l'utilisateur de la présence d'instructions importantes dans la littérature accompagnant l'appareil en ce qui concerne l'opération et la maintenance de cet appareil.

CAUTION: OVERHEAD LOAD
ATTENTION: CHARGE AÉRIENNE

FOLLOW ALL INSTRUCTIONS

Instructions pertaining to a risk of fire, electric shock, or injury to a person

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USER SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL. THIS DEVICE IS FOR INDOOR USE ONLY! INSTALLED BATTERY PACKS SHALL NOT BE EXPOSED TO EXCESSIVE HEAT SUCH AS SUNSHINE, FIRE OR THE LIKE.

Read Instructions: The Owner's Manual should be read and understood before operation of your unit. Please, save these instructions for future reference and heed all warnings.

Cleaning: Clean only with dry cloth.

Packaging: Keep the box and packaging materials, in case the unit needs to be returned for service.

Warning: To reduce the risk or fire or electric shock, do not expose this apparatus to rain or moisture. *Do not use this apparatus near water!*

Warning: When using electric products, basic precautions should always be followed, including the following:

Power Sources

Your unit should be connected to a power source only of the voltage specified in the owners manual or as marked on the unit. This unit has a polarized plug. Do not use with an extension cord or receptacle unless the plug can be fully inserted. Precautions should be taken so that the grounding scheme on the unit is not defeated. An apparatus with CLASS I construction shall be connected to a Mains socket outlet with a protective earthing connection. Where the MAINS plug or an appliance coupler is used as the disconnect device, the disconnect device shall remain readily operable.

Hazards

Do not place this product on an unstable cart, stand, tripod, bracket or table. The product may fall, causing serious personal injury and serious damage to the product. Use only with cart, stand, tripod, bracket, or table recommended by the manufacturer or sold with the product. Follow the manufacturer's instructions when installing the product and use mounting accessories recommended by the manufacturer. Only use attachments/accessories specified by the manufacturer.

Equipment that is suspended overhead must use a secondary safeguard to prevent personal injury in the event the primary mounting mechanism fails. Safety eyebolts attached to the equipment and galvanized steel wire can be used together to implement a failsafe mounting thus ensuring the safety of the equipment and anyone positioned below the equipment.

Improper installation can result in bodily injury or death. If you are not qualified to attempt the installation get help from a professional structural rigger.

Note: Prolonged use of headphones at a high volume may cause health damage to your ears.

The apparatus should not be exposed to dripping or splashing water; no objects filled with liquids should be placed on the apparatus.

Terminals marked with the "lightning bolt" are hazardous live; the external wiring connected to these terminals require installation by an instructed person or the use of ready made leads or cords.

Ensure that proper ventilation is provided around the appliance. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.

No naked flame sources, such as lighted candles, should be placed on the apparatus.

Power Cord

Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet. The AC supply cord should be routed so that it is unlikely that it will be damaged. Protect the power cord from being walked on or pinched particularly at plugs. If the AC supply cord is damaged DO NOT OPERATE THE UNIT. To completely disconnect this apparatus from the AC Mains, disconnect the power supply cord plug from the AC receptacle. The mains plug of the power supply cord shall remain readily operable.

Unplug this apparatus during lightning storms or when unused for long periods of time.

Service

The unit should be serviced only by qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, requires battery pack replacement or has been dropped. Disconnect power before servicing!

SUIVEZ TOUTES LES INSTRUCTIONS

Instructions relatives au risque de feu, choc électrique, ou blessures aux personnes

AVIS: AFIN DE REDUIRE LES RISQUE DE CHOC ELECTRIQUE, N'ENLEVEZ PAS LE COUVERT (OU LE PANNEAU ARRIERE) NE CONTIENT AUCUNE PIECE REPARABLE PAR L'UTILISATEUR. CONSULTEZ UN TECHNICIEN QUALIFIE POUR L'ENTRETIENT CE PRODUIT EST POUR L'USAGE À L'INTÉREUR SEULEMENT. LES PACKS BATTERIES INSTALLÉS NE DOIVENT PAS ÊTRE EXPOSÉS À UNE CHALEUR EXCESSIVE TELLE QUE LE ENSOLEILLEMENT, LE FEU OU SIMILAIRES.

Veuillez Lire le Manuel: Il contient des informations qui devraient êtres comprises avant l'opération de votre appareil. Conservez. Gardez S.V.P. ces instructions pour consultations ultérieures et observez tous les avertissements.

Nettoyage: Nettoyez seulement avec le tissu sec.

Emballage: Conservez la boite au cas ou l'appareil devait être retourner pour réparation.

Avertissement: Pour réduire le risque de feu ou la décharge électrique, n'exposez pas cet appareil à la pluie ou à l'humidité. *N'utilisez pas cet appareil près de l'eau!*

Attention: Lors de l'utilisation de produits électrique, assurez-vous d'adhérer à des précautions de bases incluant celle qui suivent:

Alimentation - L'appareil ne doit être branché qu'à une source d'alimentation correspondant au voltage spécifié dans le manuel ou tel qu'indiqué sur l'appareil. Cet appareil est équipé d'une prise d'alimentation polarisée. Ne pas utiliser cet appareil avec un cordon de raccordement à moins qu'il soit possible d'insérer complètement les trois lames. Des précautions doivent êtres prises afin d'eviter que le système de mise à la terre de l'appareil ne soit désengagé. Un appareil construit selon les normes de CLASS I devrait être raccordé à une prise murale d'alimentation avec connexion intacte de mise à la masse. Lorsqu'une prise de branchement ou un coupleur d'appareils est utilisée comme dispositif de débranchement, ce dispositif de débranchement devra demeurer pleinement fonctionnel avec raccordement à la masse.

Risque - Ne pas placer cet appareil sur un chariot, un support, un trépied ou une table instables. L'appareil pourrait tomber et blesser quelqu'un ou subir des dommages importants. Utiliser seulement un chariot, un support, un trépied ou une table recommandés par le fabricant ou vendus avec le produit. Suivre les instructions du fabricant pour installer l'appareil et utiliser les accessoires recommandés par le fabricant. Utilisez seulement les attachements/accessoires indiqués par le fabricant.

L'équipement suspendu au-dessus de la tête doit utiliser une protection secondaire pour éviter les blessures en cas de défaillance du mécanisme de montage principal. Les boulons à œil de sécurité fixés à l'équipement et le fil d'acier galvanisé peuvent être utilisés ensemble pour mettre en œuvre un montage à sécurité intégrée, assurant ainsi la sécurité de l'équipement et de toute personne placée sous l'équipement.

Une installation incorrecte peut entraîner des blessures corporelles ou la mort. Si vous n'êtes pas qualifié pour tenter l'installation, demandez l'aide d'un gréeur structurel professionnel.

Remarque : L'utilisation prolongée d'écouteurs à un volume élevé peut nuire à la santé de vos oreilles.

Il convient de ne pas placer sur l'appareil de sources de flammes nues, telles que des bougies allumées.

L'appeil ne doit pas être exposé à des égouttements d'eau ou des éclaboussures et qu'aucun objet rempli de liquide tel que des vases ne doit être placé sur l'appareil.

Assurez que lappareil est fourni de la propre ventilation. Ne procédez pas à l'installation près de source de chaleur tels que radiateurs, registre de chaleur, fours ou autres appareils (incluant les amplificateurs) qui produisent de la chaleur.

Les dispositifs marqués d'une symbole "d'éclair" sont des parties dangereuses au toucher et que les câblages extérieurs connectés à ces dispositifs de connection extérieure doivent être effectivés par un opérateur formé ou en utilisant des cordons déjà préparés.

Cordon d'Alimentation - Ne pas enlever le dispositif de sécurité sur la prise polarisée ou la prise avec tige de mise à la masse du cordon d'alimentation. Une prise polarisée dispose de deux lames dont une plus large que l'autre. Une prise avec tige de mise à la masse dispose de deux lames en plus d'une troisième tige qui connecte à la masse. La lame plus large ou la tige de mise à la masse est prévu pour votre sécurité. La prise murale est désuète si elle n'est pas conçue pour accepter ce type de prise avec dispositif de sécurité. Dans ce cas, contactez un électricien pour faire remplacer la prise murale. Évitez d'endommager le cordon d'alimentation. Protégez le cordon d'alimentation. Assurez-vous qu'on ne marche pas dessus et qu'on ne le pince pas en particulier aux prises. N'UTILISEZ PAS L'APPAREIL si le cordon d'alimentation est endommagé. Pour débrancher complètement cet appareil de l'alimentation CA principale, déconnectez le cordon d'alimentation de la prise d'alimentation murale. Le cordon d'alimentation du bloc d'alimentation de l'appareil doit demeurer pleinement fonctionnel.

Débranchez cet appareil durant les orages ou si inutilisé pendant de longues périodes.

Service - L'appareil ne doit être entretenu que par un personnel de service qualifié. Une réparation est nécessaire lorsque l'appareil a été endommagé de quelque manière que ce soit, comme le cordon d'alimentation ou la fiche est endommagé, du liquide a été renversé ou des objets sont tombés dans l'appareil, l'appareil a été exposé à la pluie ou à l'humidité, ne fonctionne pas normalement , nécessite le remplacement de la batterie ou est tombé. Débranchez l'alimentation avant l'entretien!

IMPORTANT SAFETY INSTRUCTIONS

The Lightning Flash with arrowhead symbol within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product enclosure that may be of sufficient magnitude to constitute a risk of shock to persons

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the product

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use this apparatus near water.
6. Clean only with dry cloth.
7. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9. Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prongs are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11. Only use attachments/accessories specified by the manufacturer.
12. Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
13. Unplug this apparatus during lightning storms or when unused for long periods of time.
14. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

WARNING:

• To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture and objects filled with liquids, such as vases, should not be placed on this apparatus.

• To completely disconnect this apparatus from the ac mains, disconnect the power supply cord plug from the ac receptacle.

• The mains plug of the power supply cord or appliance coupler shall remain readily accessible.

Le symbole représentant un éclair avec une flèche à l'intérieur d'un triangle équilatéral est utilisé pour prévenir l'utilisateur de la présence d'une tension électrique dangereuse non isolée à l'intérieur de l'appareil. Cette tension est d'un niveau suffisamment élevé pour représenter un risque d'électrocution

Le symbole représentant un point d'exclamation à l'intérieur d'un triangle équilatéral, signale à l'utilisateur la présence d'instructions importantes relatives au fonctionnement et à l'entretien de l'appareil dans cette notice d'installation

1. Lisez ces instructions.
2. Conservez ces instructions.
3. Respecter tous les avertissements.
4. Suivez toutes les instructions.
5. N'utilisez pas l'appareil près de l'eau.
6. Nettoyer uniquement avec chiffon sec.
7. Ne bloquez pas les ouvertures de ventilation. Installer en suivant les instructions du fabricant.
8. Ne pas installer près des sources de chaleur telles que radiateurs, bouches de chaleur, four ou autres appareils (y compris les amplificateurs) produisant de la chaleur.
9. N'annulez pas l'objectif sécuritaire de la fiche polarisée ou de la tige de mise à la terre. Une fiche polarisée possède deux lames avec une plus large que l'autre. Une prise avec mise à la terre possède deux lames et une troisième tige. La lame large ou la troisième tige sont fournis pour votre sécurité. Si la fiche n'entre pas dans votre prise, consultez un électricien pour remplacer la prise obsolète.
10. Protéger le cordon d'alimentation des piétinements ou pincements en particulier près des fiches, des prises de courant et au point de sortie de l'appareil.
11. Utilisez uniquement les accessoires spécifiés par le fabricant.
12. Utiliser uniquement avec un charriot, stand, trépied ou une table spécifiée par le fabricant, ou vendus avec l'appareil.
13. Débranchez l'appareil durant un orage ou lorsqu'il reste inutilisé pendant de longues périodes de temps.
14. Confiez toute réparation à un technicien qualifié. Une réparation est nécessaire lorsque l'appareil a été endommagé de quelque façon que ce soit; comme lorsque le cordon d'alimentation ou la fiche est endommagé, lorsque du liquide a été renversé ou des objets sont tombés à l'intérieur, lorsque l'appareil a été exposé à la pluie ou l'humidité, ne fonctionne pas normalement, ou est tombé.

AVERTISSEMENT:

• Pour réduire les risques d'incendie ou de choc électrique, ne pas exposer cet appareil à la pluie ou à l'humidité et ne placez pas d'objets contenant des liquides, tels que des vases, sur l'appareil.

• Pour isoler totalement cet appareil de l'alimentation secteur, débranchez totalement son cordon d'alimentation du réceptacle CA.

• La prise du cordon d'alimentation ou du prolongateur, si vous en utilisez un comme dispositif de débranchement, doit rester facilement accessible

CAUTION
TO PREVENT ELECTRIC SHOCK HAZARD, DO NOT CONNECT TO MAINS POWER SUPPLY WHILE GRILLE IS REMOVED.

AVIS
POUR PRÉVENIR LES RISQUES D'ÉLECTROCUTION, NE PAS RACCORDER A L'ALIMENTATION ÉLECTRIQUE ALORS QUE LA GRILLE EST RETIRÉE.

Specifications	
Max AC Input Voltage	100-240VAC 50/60 Hz
Power Consumption LEDs	14 watts per LED (4 LEDs, 56 watts per pod)
Power Consumption	**LP-LED2X:** 120VA, 1.0A @ 120VAC Nominal
	LP-LED4X: 240VA, 2.0A @ 120VAC Nominal
Stand Mount Size	1 3/8 inch Round
Controller Cable	Yorkville: Standard Shielded 3-pin XLR Cable
Other	DMX: Standard Shielded 3-pin XLR Cable
Dimensions (LWH)	**LP-LED2X:** 24 x 4.8 x 8 inches (61 x 12.25 x 20.4 cm)
	LP-LED4X: 31 x 4.8 x 8 inches (78.8 x 12.25 x 20.4 cm)
Weight	**LP-LED2X:** 9.5 lbs (4.3 kg)
	LP-LED4X:14.6 lbs (6.6 kg)

Spécifications	
Tension CA d'entrée Maximum	100-240VCA 50/60 Hz
Consommation de Puissance des DEL	14 watts par DEL, 4 DEL par unité, 56 watts total
Consommation de Puissance des DEL	270 Watts
Taille montage sur support	1 pouce 3/8, Rond
Câble de raccordement pour contrôleur	Câble Blindé Standard avec prise XLR 3 tiges
Autre	Module DMX Optionnel
Dimensions (LPH)	**LP-LED2X:** 24 x 4.8 x 8 pouce (61 x 12.25 x 20.4 cm)
	LP-LED4X: 31 x 4.8 x 8 pouce (78.8 x 12.25 x 20.4 cm)
Poids	**LP-LED2X:** 9.5 lbs (4.3 kg)
	LP-LED4X:14.6 lbs (6.6 kg)

SPECIAL PRODUCTION NOTES

PCB ASSEMBLY DOCUMENTATION

1. Clinch all required parts first.

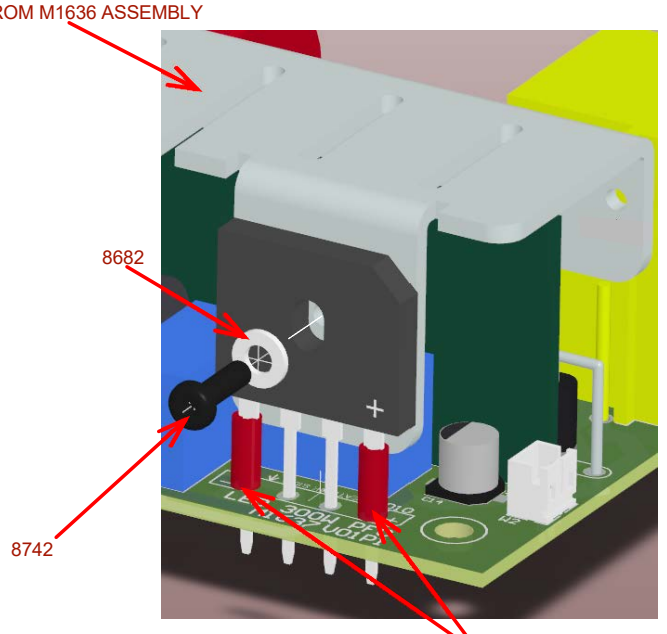
2. ASSEMBLY A: Use assembly jig Apply thermal grease to front and back of ceramic part 4181 before assembly on to Heatsink HS1 (1669).
As an alternative apply thermal grease to back of Q2 and Q3 and to one side of 4181 ceramic insulators that face heatsink HS1.
- Use Assembly A Jig See Pic 1 and place ceramic insulator (#4181) into area provided.
- Place Heatsink 1669 on top then holding heatsink and assembly jig flip it over.
- Ensure that thermal grease is applied to both sides of ceramic part #4181 or to one side of tranistors as stated above
- See Pic 2. Place Q2 and Q3 into opening of jig so that the holes in the tranisistors are aligned with the holes on the ceramic part.
- Place shoulder washer 8667 into holes of tranisistors.
- Finally add screws #8742 using electric screw driver into shoulder washer and fasten all parts to heatsink.

3. Place C39 and C40 in board before placing ASSEMBLY A into the M1637 board.

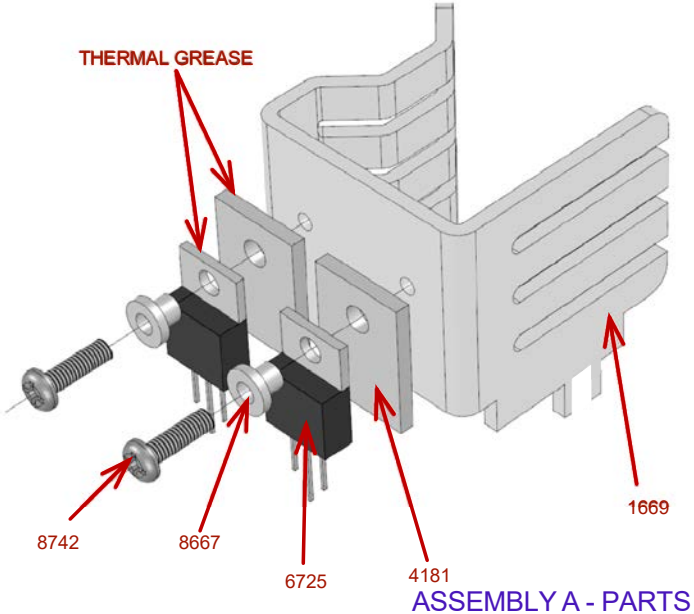
4. Place M1632 module before placing M1636 module into M1637.

5. ASSEMBLY B: After placing M1636 module assembly into board, thermal grease back of D10. Then add a 9067 to each outside leg and place into board. Add washer 8682 to screw 8742 and fasten to M1636 assembly.

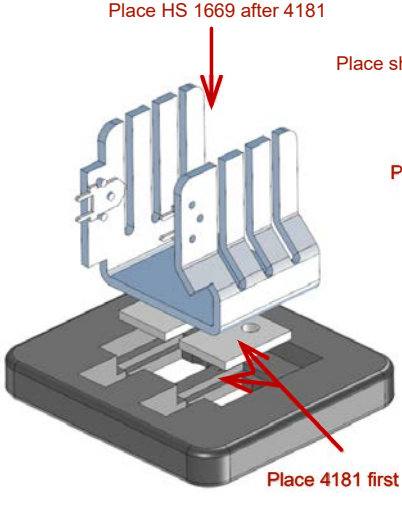
SEE ASSEMBLY PAGE 2 FOR "AFTER WAVE" PROCESSING



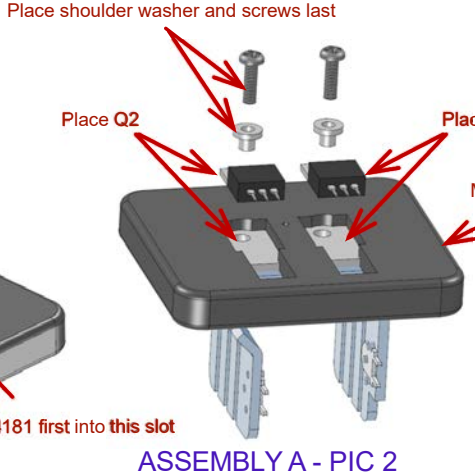
ASSEMBLY B



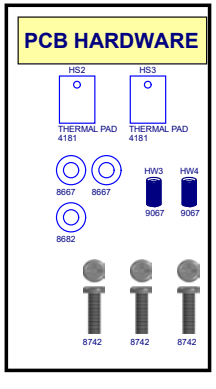
ASSEMBLY A - PARTS



ASSEMBLY A - PIC 1



ASSEMBLY A - PIC 2



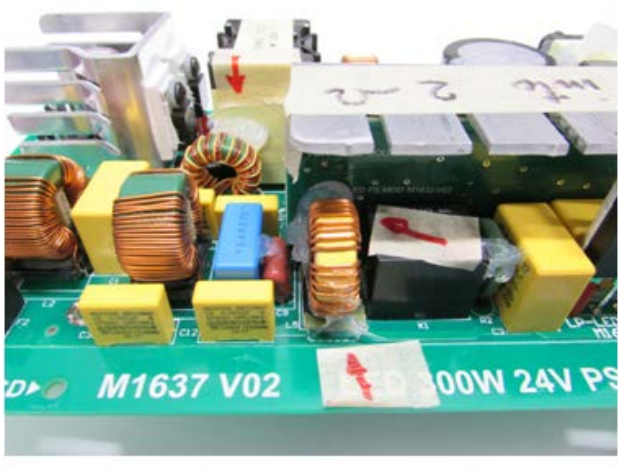
THIS SHEET CONTAINS SPECIAL PRODUCTION NOTES AND A LIST OF PCB HARDWARE PARTS REQUIRED FOR THE BUILD.

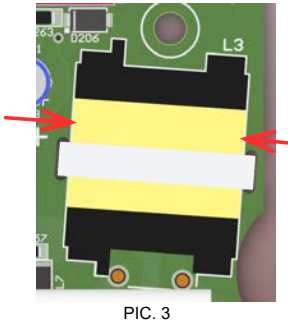
Yorkville

Section: Assembly Before Wave Instructions					
Product(s): LP-LED4X					
PCB#: M1637	Rev#: V03	EML Rev#: XX	Sheet 1 Of *		
Modified: 07-Sep-18	File: Assembly.SchDoc		Tmp Rev: V032		

ASSEMBLY PAGE 2 - AFTER WAVE

1. Place tie-wrap around L3. After RTV and tie-wrap are appled ensure that part is aligned with legend outline before RTV sets. See Pic 3.
2. Apply RTV where required and between L3 and C6
3. Use Pizza cutter to separate board from panel, except where tie-wrap for L3 interferes. Appropriate pliers may be used to remove waste area on right side of panel.
4. Install Z8801 mylar insulator and 8315 Warning Label as shown.





PIC. 3

Align L3 with legend outline and ensure that it stays aligned after tightening cable tie.

Modified: 2022-03-15 | File: History.SchDoc

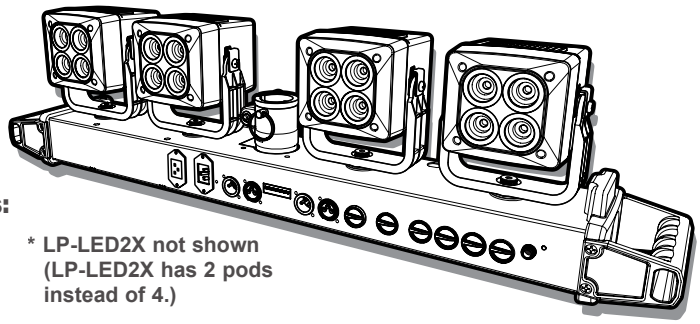
LP-LED2X/4X

Stage Lighting Lightbar



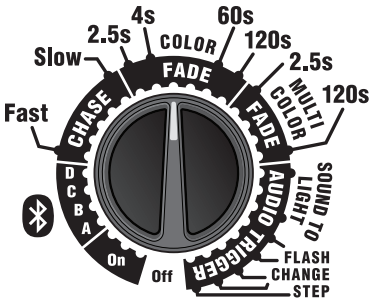
* LP-LED2X not shown (LP-LED2X has 2 pods instead of 4.)

The LP-LED2X and LP-LED4X may be used in several ways:

1. Stand alone, no separate controller is required
2. Linked to other LP-LED/X systems with one as master
3. With a Yorkville Lighting Controller.
4. With a DMX™ Controller.
5. Bluetooth Smart™ device.

Function Control & Stand Alone Operation

This control sets the basic operation of the LP-LED/X; powering the unit, activating Bluetooth™ or a choosing manual setting. When the LP-LED4X is operated stand alone, there are a number of modes which are set by the Function control.



Bluetooth™ Smart Device

You must install the Yorkville LP Control App on your smart device prior to use. The App is available on the Apple App Store and the Google Play Store.

Download on the App Store

GET IT ON Google Play

To connect, open the dedicated app and tap on the “Add Bar” button at the top of the screen. It will prompt you to enter a 4 digit pin code - if a bar is currently unsecured, any desired pin code can be entered. Security pin codes are cleared when the light bar is powered off, or can be removed from the app. You can connect up to 4 bars at once.

Brightness Control

This control varies the brightness of all pods in any function position in any operational mode.

Note: The maximum brightness controlled by the Bluetooth™ app depends on the manual brightness setting on the light bar.

Lamp Color Control

Any pod can be turned off by setting the Color control to the off position. There are 31 colors and color choices which begin with red, followed by blue, white, amber yellow and finally green. There are also several choices of color temperature for white.

Color Sound to Light

The LP-LED/X has sophisticated audio to light (color organ) circuitry. The automatic level circuitry allows it to be used with signals from weak line levels up to strong loudspeaker levels. The LP-LED/X has an internal microphone with automatic sensitivity and triggers the same sophisticated audio to light (color organ) circuitry as is used in the audio input jack.

Note: the microphone is active unless a ¼-inch phone jack is inserted to the audio input.

Using Multiple LP-LED4Xs

Multiple LP-LED/X units may be linked with a standard 3-pin XLR cable connected through the In and Out jacks (NOT the DMX In/Out jacks). When the first unit in the chain is not receiving a control signal its controls are active and the downstream units operate identically to the first unit.

Yorkville Sound LP-608 Lighting Controller

The Color control can be used to select the color of each pod or if the Color control is set to off then the LP-608 intensity control becomes the color control (including off) but the intensity is not controllable.

Note: Operation with the the legacy LP-608 controller requires a ‘gender reversing’ adapter in line with the XLR cable. This was done to prevent accidental connection to a DMX™ controller possibly causing damage.

DMX™ Internally Integrated Processing

Set unit to off position to in order to access DMX. Specific operating instructions for the DMX™ modes are available in the specific DMX™ controller operation manual.

To get the full Owner’s Manual please visit our website at

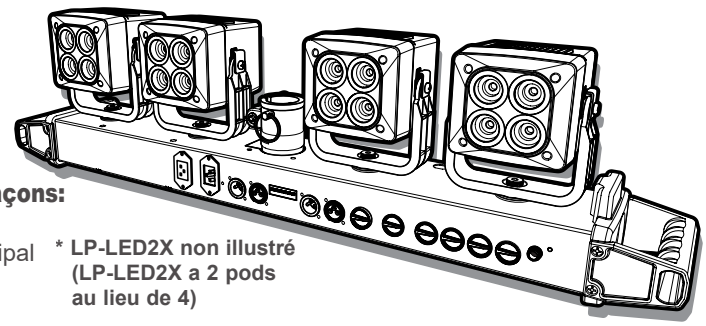
LP-LED2X/4X

Stage Lighting Lightbar



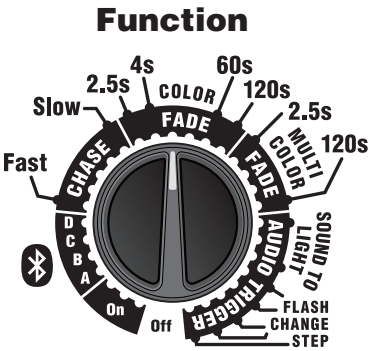
* LP-LED2X non illustré (LP-LED2X a 2 pods au lieu de 4)

Le LP-LED2x et LP-LED4X peut être utilisé de plusieurs façons:

1. Autonome , aucun contrôleur séparé n'est nécessaire
2. Lié à d'autres LP-LED/X dont un, comme contrôleur principal
3. Avec un contrôleur Yorkville
4. Avec un contrôleur DMX™
5. Dispositif Bluetooth Smart™

Commande de Fonction et Fonctionnement Autonome

Le contrôle des fonctions vous permet de régler le fonctionnement de base du LP-LED/X. Il vous permet d'allumer le pod, de choisir l'opération Bluetooth ™ ou de définir un réglage manuel. Lorsque le LP-LED/X est actionné par lui-même (autonome), il existe un certain nombre de modes qui sont définis par le contrôle de la fonction.



Dispositif Intelligent Bluetooth ™

Avant de l'utiliser vous devez installer l'application Yorkville LP Control sur votre smart device. L'application est disponible sur l'App Store d'Apple et le Google Play Store.

Download on the App Store

GET IT ON Google Play

Pour vous connecter, ouvrez simplement l'application dédiée et appuyez sur le bouton "Ajouter une barre" en haut de l'écran. Il vous demandera d'entrer un code PIN à 4 chiffres - si une barre n'est actuellement pas sécurisée, vous pouvez entrer un code PIN souhaité. Les codes PIN de sécurité sont effacés lorsque la barre lumineuse est éteinte ou peut être retirée de l'application. Vous pouvez connecter jusqu'à 4 bars à la fois.

Réglage de la Luminosité

Ce contrôle varie la luminosité de tous les pods d'éclairage dans n'importe quelle position de fonction.

Remarque: La luminosité maximale contrôlée par l'application Bluetooth™ dépend du réglage de la luminosité manuelle sur la barre lumineuse.

Contrôle de la Couleur de Lampe

Tout pod d'éclairage peut être désactivé en réglant la commande de couleur sur la position d'arrêt. Il y a 31 couleurs et les choix de couleurs commencent par le rouge, suivis par le bleu, le blanc, le jaune ambre et enfin le vert. Il existe également plusieurs choix de température de couleur pour le blanc.

Couleur du Son à la Lumière

Le LP-LED/X dispose d'un circuit sophistiqué audio à lumière (color organ). Le circuit de niveau automatique permet d'être utilisé avec des signaux provenant de niveaux de ligne faibles jusqu'à des niveaux de haut-parleur intenses. Le LP-LED/X dispose d'un microphone interne avec une sensibilité automatique. Le microphone déclenche les mêmes circuits sophistiqués d'audio à lumière (color organ) que ceux utilisés dans la prise d'entrée audio.

Remarque: le microphone est actif à moins qu'une prise ¼ de pouce ne soit insérée dans l'entrée audio.

Utilisation de LP-LED4X Multiples

De multiples unités LP-LED/X peuvent être liées avec un câble XLR 3 broches standard connecté par les prises In et Out (n'utilisez pas les connecteurs DMX). Lorsque la première unité de la chaîne ne reçoit pas de signal de contrôle, ses commandes sont actives et les unités en aval fonctionnent de manière identique à la première unité.

Contrôleurs d'éclairage LP-608 de Yorkville Sound

Le contrôle de couleur peut être utilisé pour sélectionner la couleur de chaque pod ou si la commande de couleur est désactivée, le contrôle d'intensité du contrôleur devient le contrôle de couleur (y compris la position OFF) mais l'intensité n'est pas contrôlable.

Remarque: Le fonctionnement avec le contrôleur LP-608 nécessitera un adaptateur d'inversion en ligne avec le câble XLR. Cela a été fait pour empêcher une connexion accidentelle à un contrôleur DMX™ qui pourrait causer des dommages.

Traitement intégral Intégré DMX ™

Mettez l'appareil en position off pour accéder au DMX. Des instructions d'utilisation spécifiques pour les modes DMX ™ sont disponibles dans le manuel d'utilisation spécifique du contrôleur DMX ™.

Pour obtenir le manuel de utilisateur visitez notre site Web à **http://www.yorkville.com/manuals/**

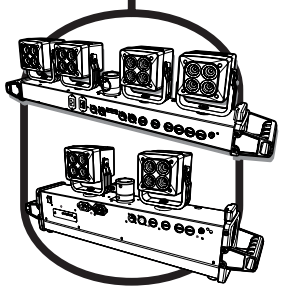
LP-LED Mounting Instructions for Tripod Speaker Stand

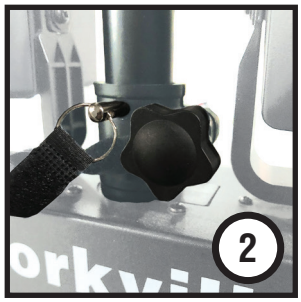


1. Fully extend the tripod legs for maximum stability.
2. Position the LP-LED unit/s at desired positions on poles and use thumb screws and locking pins to help secure position.
3. Extend the Speaker Tripod pole to desired height and use the locking pin and the thumb screws to help secure the position.

* LP-LED4X shown

1. Déployez complètement les pieds du trépied pour une stabilité maximale.
2. Positionnez les unités LP-LED aux positions désirée sur les poteaux et utilisez des vis à oreilles et des goupilles de verrouillage pour aider à sécuriser la position.
3. Déployez le poteau du trépied du haut-parleur à la hauteur désirée et utilisez la goupille de verrouillage et les vis à oreilles pour maintenir la position.

* LP-LED4X illustré



IMPORTANT
ALWAYS use the speaker stand on a flat, level surface to ensure stability.
The speaker stand must have suffcient load capacity.

IMPORTANT
Utiliser TOUJOURS le pied d'enceinte sur une surface plane pour assurer la stabilité.
Le pied d'enceinte doit avoir une capacité de charge suffisante.

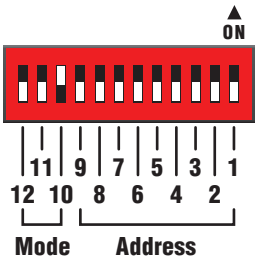
**Note: The user must change the color on the Light Bar itself, and will not have control of it in this mode. Additionally, if the user needs MAXIMUM INTENSITY, the Brightness MUST be set to MAXIMUM on the Lightbar itself!.*

Mode 2 (8 DMX™ Channels, dip switch #10 set to ON)



CH 1 – Intensity of Pod 1

CH 2 – Colour for Pod 1

CH 3 – Intensity of Pod 2

CH 4 – Colour of Pod 2

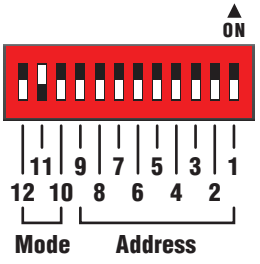
CH 5 – Intensity of Pod 3

CH 6 – Colour of Pod 3

CH 7 – Intensity of Pod 4

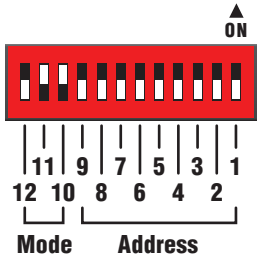
CH 8 – Colour of Pod 4

Mode 3 (20 DMX™ Channels, dip switch #11 set to ON)



CH 1 – Red for Pod 1
CH 2 – Green for Pod 1
CH 3 – Blue for Pod 1
CH 4 – White for Pod 1
CH 5 – Intensity for Pod 1
CH 6 – Red for Pod 2
CH 7 – Green for Pod 2
CH 8 – Blue for Pod 2
CH 9 – White for Pod 2
CH 10 – Intensity for Pod 2
CH 11 – Red for Pod 3
CH 12 – Green for Pod 3
CH 13 – Blue for Pod 3
CH 14 – White for Pod 3
CH 15 – Intensity for Pod 3
CH 16 – Red for Pod 4
CH 17 – Green for Pod 4
CH 18 – Blue for Pod 4
CH 19 – White for Pod 4
CH 20 – Intensity for Pod 4

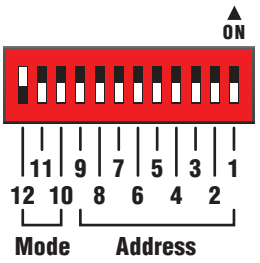
Mode 4 (32 DMX™ Channels, dip Switch #10 and #11 set to ON)



CH 1 – Red for Pod 1
CH 2 – Green for Pod 1
CH 3 – Blue for Pod 1
CH 4 – White for Pod 1
CH 5 – Intensity for Pod 1
CH 6 – Strobe Speed for Pod 1
CH 7 – Strobe Intensity/Brightness for Pod 1
CH 8 – Sync (Master)
CH 9 – Red for Pod 2
CH 10 – Green for Pod 2
CH 11 – Blue for Pod 2
CH 12 – White for Pod 2
CH 13 – Intensity for Pod 2

CH 14 – Strobe Speed for Pod 2
CH 15 – Strobe Intensity/Brightness for Pod 2
CH 16 – Sync to Master CH 8
CH 17 – Red for Pod 3
CH 18 – Green for Pod 3
CH 19 – Blue for Pod 3
CH 20 – White for Pod 3
CH 21 – Intensity for Pod 3
CH 22 – Strobe Speed for Pod 3
CH 23 – Strobe Intensity/Brightness for Pod 3
CH 24 – Sync to Master CH 8
CH 25 – Red for Pod 4
CH 26 – Green for Pod 4
CH 27 – Blue for Pod 4
CH 28 – White for Pod 4
CH 29 – Intensity for Pod 4
CH 30 – Strobe Speed for Pod 4
CH 31 – Strobe Intensity / Brightness for Pod 4
CH 32 – Sync to Master CH 8

Mode 5 (Occupies 16 DMX Channels. Dip Switch 12 Up from the Right Only)



CH 1 – Chase Effect

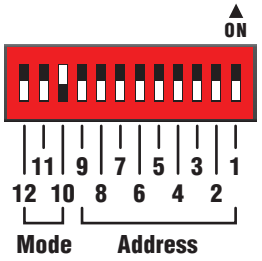
C 4 – Intensité du Pod 4

** Remarque: L'utilisateur doit changer la couleur sur la barre lumineuse elle-même. Il n'en aura pas le contrôle dans ce mode. De plus, si l'utilisateur a besoin d'une INTENSITÉ MAXIMALE, la luminosité DOIT être réglée sur MAXIMUM sur la barre de lumière elle-même!*

Mode 2 (8 canaux DMX ™, le commutateur Dip # 10 réglé à ON)



C 1 – Intensité du Pod 1

C 2 – Couleur du Pod 1

C 3 – Intensité du Pod 2

C 4 – Couleur du Pod 2

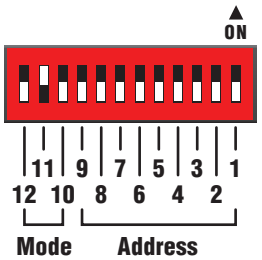
C 5 – Intensité du Pod 3

C 6 – Couleur du Pod 3

C 7 – Intensité du Pod 4

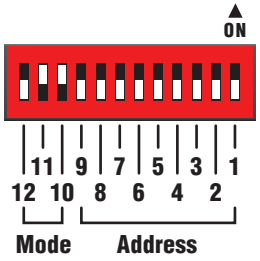
C 8 – Couleur du Pod 4

Mode 3 (20 canaux DMX ™, le commutateur Dip # 11 réglé à ON)



C 1 – Rouge pour Pod 1
C 2 – Vert pour Pod 1
C 3 – Bleu pour Pod 1
C 4 – Blanc pour Pod 1
C 5 – Intensité pour Pod 1
C 6 – Rouge pour Pod 2
C 7 – Vert pour Pod 2
C 8 – Bleu pour Pod 2
C 9 – Blanc pour Pod 2
C 10 – Intensité pour Pod 2
C 11 – Rouge pour Pod 3
C 12 – Vert pour Pod 3
C 13 – Bleu pour Pod 3
C 14 – Blanc pour Pod 3
C 15 – Intensité pour Pod 3
C 16 – Rouge pour Pod 4
C 17 – Vert pour Pod 4
C 18 – Bleu pour Pod 4
C 19 – Blanc pour Pod 4
C 20 – Intensité pour Pod 4

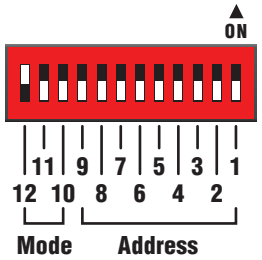
Mode 4 (32 canaux DMX ™, les commutateurs Dip #10 et #11 réglés à ON)



C 1 – Rouge pour Pod 1
C 2 – Vert pour Pod 1
C 3 – Bleu pour Pod 1
C 4 – Blanc pour Pod 1
C 5 – Intensité pour Pod 1
C 6 – Vitesse stroboscopique pour Pod 1
C 7 – Intensité / luminosité du strobe pour Pod 1
C 8 – Synchronisation (Master)
C 9 – Rouge pour Pod 2
C 10 – Vert pour Pod 2
C 11 – Bleu pour Pod 2
C 12 – Blanc pour Pod 2
C 13 – Intensité pour Pod 2
C 14 – Vitesse stroboscopique pour Pod 2
C 15 – Intensité / luminosité du strobe pour Pod 2

C 16 – Synchronisation au C 8 (Master)
C 17 – Rouge pour Pod 3
C 18 – Vert pour Pod 3
C 19 – Bleu pour Pod 3
C 20 – Blanc pour Pod 3
C 21 – Intensité pour Pod 3
C 22 – Vitesse stroboscopique pour Pod 3
C 23 – Intensité / luminosité du strobe pour Pod 3
C 24 – Synchronisation au C 8 Master
C 25 – Rouge pour Pod 4
C 26 – Vert pour Pod 4
C 27 – Bleu pour Pod 4
C 28 – Blanc pour Pod 4
C 29 – Intensité pour Pod 4
C 30 – Vitesse stroboscopique pour Pod 4
C 31 – Intensité / luminosité du strobe pour Pod 4
C 32 – Synchronisation au C 8 Master

Mode 5 (Occupe 16 canaux DMX, le commutateurs Dip # 12 réglé à ON, et #10 et #11 réglés à OFF)



C 1 – Effet Chase
C 2 – Effet Fondu de Couleur
C 3 – Effet Couleur Mixte
