

NX8P

8-INCH POWERED LOUDSPEAKER

Overview

NX loudspeakers have a history of traditional analog design and a reputation for road-tested reliability. Now, Yorkville is proud to introduce the new NX8P, a thoroughly modern update to this classic series. This next-generation model offers advanced DSP, powerful limiting, extended connectivity, and exceptional sound.

The NX8P works equally well as a front of house speaker, stage monitor, or side-fill cabinet. Featuring an 8" woofer and 2600 watts of peak power (1000 watts program), it is now the most compact, portable speaker in the NX series.

In addition to the main XLR input and output, the NX8P has an onboard three-channel mixer, so it doesn't require an external console for small PA applications. Two mono channels each feature Combi-Jack inputs, phantom power, switchable mic or line input levels, and switchable high-pass filters. The third channel accepts stereo 1/8" line or Bluetooth® sources, including wireless stereo playback between two cabinets.

The master section features a high-pass filter for use with a subwoofer or as a vocal monitor, and three selectable modes optimize EQ and dynamics for live performance, background music, or stage monitor use.

Features

- 2600 W Peak Power (1000 W Program)
- 8" LF Driver and 1" HF Driver
- Main Input & Output XLR Connections
- Onboard 3-Channel Mixer (2x Mono, 1x Stereo) with Phantom Power
- Bluetooth® Wireless Streaming
- Switchable LF Rolloff for Use with Subwoofers
- Onboard DSP with 3 Voicing Modes
- Integrated Flying Hardware

Specifications

System Type	Powered Loudspeaker
Power Rating	2600W Peak (1000 W Program)
Max SPL	123 dB Peak
Frequency Response	65 Hz - 20 kHz
HF Driver(s)	1" Exit Compression Driver
LF Driver(s)	8"
In / Out Connections	Main In (XLR-F), Main Out (XLR-M)
Channel 1 Input	1 Combi-Jack (XLR / 1/4")
Channel 1 Controls	Level, Input Type, High-Pass Filter
Channel 2 Input	1 Combi-Jack (XLR / 1/4")
Channel 2 Controls	Level, Input Type, High-Pass Filter
Channel 3 Input	1/8" TRS, Bluetooth® Wireless
Channel 3 Controls	Level
Bar Handles	1 (Top)
Flypoints	3 (2 Top, 1 Pullback)
Flying Hardware	M8 Threading
Pole Mount Adapter	1 (Bottom)
Enclosure Materials	Polypropylene
Grille	Perforated Metal
Dimensions (DWH)	11.14" x 12.17" x 18.39" 28.3 cm x 30.9 cm x 46.7 cm
Weight	27.7 lbs / 12.6 kg
Box Dimensions	16.5" x 15.4" x 20.5" 42 cm x 39 cm x 52 cm
